

PRODUCT INTRODUCTION

About us

Longde Limited focuses on the commerce of materials(metal, construction, heat preservation) and equipment (mechanical, tools), with products exported to more than 30 countries used in a wide range of applications (civil and industrial) with a consistent reputation of superior quality and diligent services. The Company is a supplier for worldwide customers in China and has a worldwide partner network and product information system operated by specialized crews that provide comprehensive services. LongDe's principles are innovation, quality, honesty, and cooperation. The Company aims to provide the customer with superior product and meticulous service.

Aluminium roof panel feature

Excellent durability

The steel roof panel is made by aluminium sheet which has good anticorrosion feature with the life time for more than 20 years.

Convenient installation

The aluminium roof panel can be freely incised, it can satisfy the special designing demands. In addition, there is no need special tools to fix the sheet.

Beautiful appearance

Rich color and variety style offer you a beautiful roof. Different shape of the roof panel make it suitable for any style of buildings.

Light weight

The weight is light, which makes it is easy to carry, to install.

Aluminium roof panel

LD-01 Aluminum roof sheet 650 type

Type: YX-650

Material: full aluminium coil

Cover width: 650mm

Coil width: 750mm

Thickness: 0.4-1.2mm

Top coating: 20-40um

Back coating: 10-15um

Color: any RAL (required by your demand)

Usage: roof

LD-02 Aluminum roof sheet 750 type

Type: YX-750
Material: full aluminium coil
Cover width: 750mm
Coil width: 1000mm
Thickness: 0.4-1.2mm
Top coating: 20-40um
Back coating: 10-15um
Color: any RAL (required by your demand)
Usage: roof

LD-03 Aluminum roof sheet 820 type

Type: YX-820
Material: full aluminium coil
Cover width: 820mm
Coil width: 1000mm
Thickness: 0.4-1.2mm
Top coating: 20-40um
Back coating: 10-15um
Color: any RAL (required by your demand)
Usage: roof

LD-04 Aluminum roof sheet 840 type

Type: YX-840
Material: full aluminium coil
Cover width: 840mm
Coil width: 1000mm
Thickness: 0.4-1.2mm
Top coating: 20-40um
Back coating: 10-15um
Color: any RAL (required by your demand)
Usage: roof

LD-05 Aluminum roof sheet 850 type

Type: YX-850
Material: full aluminium coil
Cover width: 850mm
Coil width: 1000mm
Thickness: 0.4-1.2mm
Top coating: 20-40um
Back coating: 10-15um
Color: any RAL (required by your demand)
Usage: roof
